

Spectrasol Sunline 45 Direct

DIRECT LUMINAIRES FOR DARK CEILINGS

LUMINAIRE DESCRIPTION

The patented Spectrasol linear LED luminaire will illuminate your interior with artificial light that has properties close to those of natural sunlight. Thanks to a balanced spectral composition (SPD) that positively influences the body's circadian rhythms through the non-image-forming (NIF) system of the eye, you will get biologically optimised full-spectrum lighting that supports overall health, physical and mental vitality and cognitive functions (cognitive performance and endurance, concentration, attention, quick thinking, ability to comprehend information, remember them and recall them from memory) indoors during the day.

Moreover, Spectrasol light fixtures do not emit concentrated energy in the short-wavelength blue part of the light spectrum, the so-called harmful blue light, which increases the risk of macular degeneration. On the contrary, Spectrasol actually regenerates the eyes by emitting energy in the red, photobiomodulating part of the light spectrum, which acts as a compensating factor for harmful blue light with both preventive and therapeutic effect.

Spectrasol Sunline Direct luminaires are designed for direct lighting during the day. They are suitable, e.g., for rooms where due to dark or structured ceilings it is not possible to use luminaires with indirect or large-area light distribution.

TECHNICAL PARAMETERS

Lighting parameters

Light distribution	direct
Optical system	microprism
UGR	<19 (depending on the lighting design)
CCT actual	4800 K
CCT specific	5000 K
CRI	>95
DER mel	(D65)=0.87; (D50)=1
Flicker	flicker free
Calculated LED lifetime	L80B20 70.000h

Electrical parameters

Power supply	220-240 V 50-60 Hz
Connection	transparent lead wire terminated with tubes
Control options	ON/OFF, DALI, SWITCH DIM

Mechanical parameters

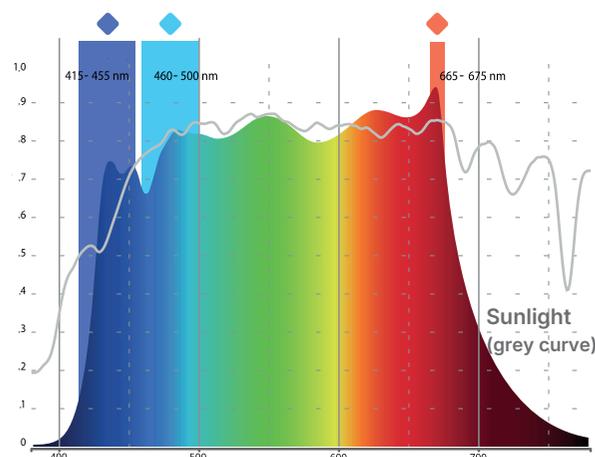

Body	aluminium profile
Profile dimensions	47x59 mm
Finish	powder-coating white RAL 9003 powder-coating black RAL 9005 powder coating silver TIGER 09/90530
Maximum ambient temperature	25°C
Protection class	IP20
Packaging	cardboard packaging

tolerance on photometric quantities ±10%

¹actual CCT in a typical illuminated room

²specific CCT luminaires (spherical integrator)

SPECTRASOL SPECTRAL COMPOSITION VISUALISATION IN A TYPICAL ILLUMINATED SPACE AND DESCRIPTION OF ITS KEY REGIONS

◆ Harmful blue light suppressed

Does not damage retinal cells

Does not emit concentrated energy in the harmful blue light risk region (415-455 nm)

◆ Procognitive – Circadian melanopic energy

Supports the circadian system and the resulting cognitive performance, health and mood

Balanced energy in the cyan procognitive region (460-500 nm)

◆ Regenerative photobiomodulating energy

Regenerates damaged retinal cells

Peak emission in the photobiomodulation red (~670 nm)

SUNLINE 45 DIRECT LUMINAIRE VARIANTS
